

RICHARD HAWORTH

Bed, bath and table linen since 1876

We are experts in the hospitality industry with over 140 years' experience

Established in 1876, Richard Haworth has a track record second to none in meeting the needs of the textile rental, hospitality and catering sectors. Based at our Victorian mill in Manchester, we have the widest selection of hospitality bed, bath and table linens in the UK. These products can be found in hotel establishments ranging from prestigious luxury London hotels to small country hotels to the economy sector, in addition to supplying all the leading commercial laundries in the UK.

We've learned that attention to detail, whether it's ease of ordering or timely delivery, matters a great deal. As a result we hold over 1.5 million items in stock, all available for next day delivery. We believe the quality and consistency are key to ensuring the high demands of customers are met. Each and every product supplied goes through a rigorous set of specified tests at an on-site laboratory. With three dedicated full-time members of staff who have 40 years' combined experience in textile technology, and being registered to ISO 9001:2015, we can be very confident with the quality and consistency of all products.

Based at our 240,000 sq. ft. mill, the on-site manufacturing facility remains one of the largest in the UK. This allows us to respond quickly to the needs of customers. Consistently looking to

pioneer new products is in the company's DNA. Revolutionary products such as Amalfi, a polyester table linen range that has the appearance of cotton but the performance of polyester, and Prima bed linen, specially developed with ease of laundering and longevity in mind, have since become industry standards.

As a member of both the Better Cotton Initiative and Ethical Trading Initiative (the ground-breaking alliance of companies and trade unions, all of whom work to improve the lives of workers across the globe). Richard Haworth actively promotes these principles to partners and prospective suppliers from all over the world. Social compliance is a major part of our supplier selection criteria and we work tirelessly to ensure that suppliers carry out regular checks using the SMETA (Sedex Members Ethical Trade Audit), SA8000 accreditation or any other accredited social audit.

Please look through our brochure and if you require any advice or further information, please do not hesitate to call us on 0870 777 5000 and our team would be delighted to offer assistance. In addition you can arrange to visit our showroom and experience first-hand the feel and quality of our linens.

We look forward to hearing from you.

The Production Process

Farming

Cotton seeds are planted in fields all over the world. As a member of the Better Cotton Initiative, the largest cotton sustainability programme in the world, we support farmers to adopt more environmentally, socially and economically sustainable practices.

Ginning

Once the cotton is picked from the fields it goes through a ginning process that removes impurities and separates fibres from the seeds.

Spinning

The drawn-out strands of fibres are spun together to form the yarn ready for weaving. As a member of the Ethical Trading Initiative, a leading alliance of companies, trade unions and NGOs that promotes respect for workers' rights all over the world ensuring workers are free from exploitation and discrimination and enjoy the conditions of freedom, security and equality.

Fabric Preparation & Finishing

The fabric is then bleached and dyed so that it is free from any impurities and is then ready to be made up into various types of products.

Weaving

The yarns are then woven to produce a fabric.

Sewing

The fabrics are then cut and sewn into finished products ready for use.

Warehousing

The finished products are then stored at our 240,000 sq. ft. Victorian mill where we hold over 1.5 million items at any time, all available for next day delivery.

Laundry

We always advise washing items before use to ensure they are in their optimal condition and to maximise their lifespan and ensure the best ROI.

Hotel

Once installed in the hotel, guests have the best night's sleep possible as you can promote that our products are produced in the most responsible and sustainable way.

Order by phone on **0870 777 5000**

Bed

Bed Linen

We specialise in fine yarns with a top quality finish to give the luxurious appearance and feel favoured by the most prestigious hotels, enabling your guest to have the best night's sleep possible.

“We use Richard Haworth because they deliver an excellent product and great service. Their customer care qualities are second to none.”

Mangala Wickramasinghe
Head of Procurement, Cheval Residences

Prima

Cotton Rich | 130 Thread Count | 130GSM | White

Prima has been specially developed with ease of laundering and longevity as its key properties. The revolutionary fabric is an intimate blend with a high cotton content giving it the cotton soft feel which stays wonderfully white wash after wash. The element of man-made

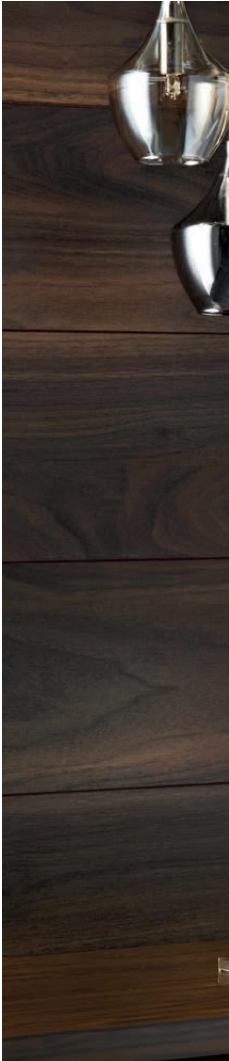

fibre provides extra strength and also retains less moisture in the wash. Prima was endorsed by a leading linen supplier as “the best linen product we have ever processed”.

Jersey PU Mattress Protectors

Our jersey PU mattress protector is a fitted protector that is hygienic, waterproof and breathable. The pure jersey cotton cover has been coated with three successive layers of Sanitized® Polyurethane (PU) and is fully anti-bacterial, creating a perfect barrier against bacteria, microbes and dust mites and also helping against allergens. The cotton jersey skirt holds the protector perfectly in place and, as there is no PVC, guarantees a blissfully quiet sleep. Also available in a fully enclosed option, providing maximum protection for your mattress.

Washing Tips

- Wash at 60°C.
- If stained then leave to soak and wash as soon as possible.
- Mild bleach can be used on white cloths but do not use fabric conditioner.
- All textiles benefit from being pre-washed before first use as stains are more difficult to remove on unwashed fabrics.
- Avoid washing polyester and cotton textiles together. Cotton lint and debris are attracted to polyester.

“The linen you have supplied us for our Michelin restaurant has worked a treat and has certainly given the restaurant the warmth and individuality we required.”

Mike Beveridge

Seaham Hall, White Room Restaurant

Special Event Linen

Our UK made special event banquet and conference cloths have been designed to transform a standard room into an elegant backdrop for your special event.

1. Chair Covers

With 26 colours to choose from (see page 49), a simple but highly effective way to transform any chair in any setting. We have covers to fit two different chair styles and if none of these are suitable we can make to order specifically for your chair.

Chair Covers	Size (cm)	Product Code
Cheltenham Banquet	-	A08047R1
Royal Compact	-	A08047R4

2. Bows & Sashes

The simplest way to dress up a chair for a wedding or special event. Bows and sashes are available in 26 colours, see page 49.

Decorations	Size (cm)	Product Code
Bow & Knot	-	A08075X1
Sash	-	A08276X1

3. Cocktail Table Covers

Our elegant stretch covers will look fantastic on your cocktail tables and can transform a reception area. They look equally impressive in a traditional or contemporary setting and are easy to use. Let your imagination do the work and use them on their own or dress them up with a tablecloth or bow. A simple and cost effective way to make an impact that your guests will remember.

4. Flipchart Covers

Flipchart covers are made to complement or co-ordinate with the rest of your room and are manufactured in sueded, double sided conference cloth. They are ideal for personalising with your logo. They are made to a universal size.

5. Table Skirting

Table skirts are designed to be clipped around your existing trestle tables using durable injection moulded clips which are included with the skirts and also available to purchase separately.

The skirts are manufactured in several heading styles and a variety of fabrics and colours. Sold by the metre we can make them in lengths which best suit the specific needs of your venue. We also make the drop of the skirts to fit your table height, thus ensuring a professional and stylish finish which will enhance any room set-up.

We use polyester fabrics which are soft, durable and easy to launder. Our fabric ranges include Esholt, Carlton and Aloha but we are always innovating, so please ask if you would like a specific fabric style.

Available in the following heading styles: Flat Panel, Accordion, Box Pleat, Double Box Pleat

Double Box Pleat

Box Pleat

6. Conference Cloths

Designed for use in conference and meeting rooms, our fitted drop cover conference cloths can be made to fit any size rectangular and circular table. In addition to fitted drop covers, our conference cloth is available to purchase on a roll in fabric format and is made from Aloha, a suede-like fabric that is both machine washable and dryable for easy care.

Personalise Your Products

Embroidery

Our in-house design team can take an image, logo or letterhead and create an embroidery design in almost any colour and size for inclusion on towels, robes, napkins, table runners or aprons. We will send you a copy of the design for approval before progressing to sampling on the item you wish to purchase. There may be a small charge for the initial design and set-up.

Jacquard Weaving

We offer jacquard name woven towels, bath mats and table linen. Minimum order quantities will apply dependent upon the product. To discuss further, please contact our sales desk.

Protecting your Linens

With the loss of linen as prevalent as ever, your business now has the option to use Radio Frequency Identification (RFID) technology to track linens and improve stock management. We can include RFID tags, name labels and even heat stamping to improve linen security.

QA - The Best Economy

At Richard Haworth we believe that Quality and Consistency are key to ensuring we meet the high standards of our customers so that they can meet the tough demands of their customers. We take Quality very seriously and we feel it is vitally important that all products supplied by Richard Haworth meet expectation each and every time. To make sure we can achieve this requirement we invest heavily in a well equipped on-site laboratory with three dedicated full-time members of staff who have 38 years of combined experience in textile technology. Our ultimate goal is that as a valued Customer, you do not simply buy an item from us but you buy into a service. A service that will grow and provide you the right goods, at the right time.

10 reasons to buy Richard Haworth products...

1. Richard Haworth adheres to a rigorous internal quality management system.
2. All incoming goods are checked by our dedicated Quality Assurance Department in line with AQL Standards 2.5 level 2.
3. All our fabrics are Heat Set during manufacture at the appropriate temperatures to achieve the optimal dimensional stability possible.
4. Shade continuity of all our fabrics is maintained under a D65 Artificial Daylight source.
5. Products are manufactured to a minimum stitch rate, for example 8 stitches per inch for lock stitch goods and 17 stitches per inch for overlocked items.
6. Fabric weights are checked using the British Standard 12127:1998 test which determines the mass per unit area.
7. Cotton products are regularly checked to British Standard BS2610 Cuprammonium Fluidity.
8. British Standard test 2819:1990 is used to determine the bow, skew and lengthway distortion in woven fabrics.
9. The construction, composition and yarn count of fabrics is checked to British Standard tests 1049-2:1994, 4407:1988 and 2865:1984 respectively.
10. Our on-site manufacturing floor is one of the largest flat cut and sew operations in the UK and provides competitively priced bespoke linens.

Products have been produced in according to international standards such as Oeko-Tex, ISO 9001 and Environmental Standards GmbH (CERES).
